The regular monthly Board Meeting of the Lakefront Management Authority was held virtually on Thursday, February 25, 2021 via Zoom and livestreamed for public view at [Lakefront Management Authority - YouTube](#) after due legal notice of the meeting was sent to each Board member and the news media and posted. Certification pursuant to LA Rev. Stat. 42:17.1 (ACT NO. 302, 2020 REGULAR LEGISLATIVE SESSION) was distributed.

Chair Wilma Heaton called the meeting to order at 5:30 P.M., and Commissioner Hebert led in the pledge of allegiance.

Executive Director Louis Capó called the roll, and a quorum was present.

OPENING COMMENTS:

Chair Heaton reminded all that we are diligently advocating for funding for the proposed New Orleans Lakefront Airport Floodwall Project. She asked commissioners to assist in this very important issue that would save lives and was the future of the Airport.

MOTION TO ADOPT AGENDA:

A motion was offered by Vice Chair Francis, seconded by Commissioner Watters, and was unanimously approved to adopt the agenda.

ADOPTION OF THE MINUTES:

A motion was offered by Commissioner Watters, seconded by Commissioner Green, and was unanimously approved to adopt the minutes of the January 28, 2021 Board Meeting.

PUBLIC COMMENT:

Ashley Haspel, President of the Lake Terrace Property Owners Association submitted her comments in writing:

“To whom it may concern,

On behalf of the Lake Terrace Property Owners Association (the "LTPOA"), I write to you regarding the servitude next to 1744 Lakeshore Drive. Esmond Carr reached out to us to inform us that Entergy is preparing to send a Letter of No Objection to you, thus allowing the property owner to fence off the servitude.

The LTPOA objects to allowing the servitude to become private property:

- Although Entergy does not need it, people in the neighborhood still use the servitude to get back and forth to Lakeshore Drive.

- The property owner purchased the property knowing that the servitude was to remain open to the public, *see Lake Terrace Property Owners Ass'n v. City of New Orleans*, 567 So.2d 69 (La. 1990).
- Additionally, Section IX of the LTPOA Deed Restrictions provides that the servitude is to remain a public walk: The areas on which these easements and transformers rest will be owned by the Orleans Levee Board, except in Squares Nos. 6, 27, 32, and 33, where public walks are provided to conform to the regulations of the City Planning and Zoning Commission, in which case the walks will be widened to 12 feet to permit their use by the New Orleans Public Service Inc., In this case the easements are public property and will be dedicated to the City of New Orleans.
- If the LMA permits a property owner to retake a servitude for private use, the LTPOA believes that a dangerous precedent will be set for other servitudes in Lake Terrace, Lake Oaks, Lake Vista, and Lakeshore.

Each of the four-lakefront neighborhoods was founded with individual deed restrictions that were designed to ensure continuity in each neighborhood. Allowing a property owner to completely ignore the LTPOA Deed Restrictions and take private possession of a public servitude is not acceptable, and puts the things that set our neighborhoods apart from others in New Orleans at risk.”

Mark Fullmer, President of the Lake Vista Property Owners Association, sent a message via email in support of Ms. Haspel’s comments.

DIRECTORS’ REPORTS:

Director Capo said that the Special Finance Committee Meeting for the Budget Hearing would take place on March 11, 2021 beginning at 2:30 PM. He said a schedule was sent out to Commissioners, and they would host the meeting with social distancing measures in place in the conference room.

COMMITTEE REPORTS:

Airport Committee: Bruce Martin, Airport Director, gave a report on behalf of the Airport Committee. Mr. Martin said staff was working on Hurricane Zeta repairs including mold testing at the National Guard Hangar.

He said survey work had begun by the Southeast Flood Protection Authority – East (FPA) on Airport property in advance of the proposed New Orleans Lakefront Airport Floodwall Project, including boring samples and measurements.

He noted that the film industry was beginning to return, and location managers were expressing interest in using Airport property.

Finance Committee: There was no report, and Director Capo reminded the Board that they would be meeting soon to discuss the proposed budget.

Legal Committee: Commissioner Cohn said that a couple of rulings had been made in active LMA cases and gave a brief update:

- In the litigation against J&J Partners, the Court ruled against the LMA after a multi-day hearing in January. The LMA filed a Petition for Devolutive Appeal on February 17th and was preparing an appeal to the Louisiana Fourth Circuit.
- In the litigation Boh Bros. pursued against the LMA, the Court heard the LMA's remaining exceptions on February 24, 2021. Judge Reese ruled from the bench and granted some of the exceptions and denied others. Boh Bros was permitted to continue with a small portion of its original lawsuit.

Commercial Real Estate: Commissioner Watters said that the Committee met on February 11, 2021 and discussed the structural and environmental report for 404 S. Roadway and 6701 Stars and Stripes Blvd, and he indicated there was a significant amount of trash and hazards at each location. He said Mr. Hill was going to evaluate how to best delegate those efforts between in-house maintenance staff and contracted services. Commissioner Watters opined if the costs for the services would exceed the cost that would necessitate a public bid process.

Mr. Hill said that maintenance staff cannot remove certain items, such as paint cans, on their own so items such as hazardous waste removal must be addressed. He said costs need to be fully assessed, and he added that at the request of his Committee that his team had scheduled electrical contractors to evaluate and possibly remedy the electrical hazards in the building. He added that they could also hopefully repair the lighting system, a safety item as well.

Commissioner Watters expressed urgency about putting available properties on the market as he believed developers may be willing to invest as the COVID-19 pandemic came to a close.

He said the Committee made some minor comments on the design standards for the development of boathouses.

He said Director Capo explained how the proposed budget would be discussed and the opportunities available to Commissioners to review the proposed budget with staff. He commented that the LMA had continued to collect rents and other revenues despite the extenuating circumstances and complimented staff on their efforts.

Marina Committee: Commissioner Brien complimented Harbor Master, Brad Vanhose, for identifying the Office of Debt Recovery, and the Committee fully supported the actionable item to approve the agreement with that office as it would be a free tool for the LMA to use to collect rents.

Recreation: Commissioner Romero explained that there was an issue at 1744 Lakeshore Drive due security concerns involving access to the property via the adjacent public servitude. He explained that the property owner requested relinquishment of the servitude. He said Entergy was willing to relinquish the servitude; however, it did not relinquish the public's use of the servitude which is its other legal purpose. The property owner associations said they do not want the relinquishment to take place and said they have not gotten feedback from the property owner.

He explained that there were issues with debris pick up in the parks, and those issues had been remedied by Mr. Hill. He also explained that servitude cleanup efforts were delayed due to the overwhelming workload brought about from Hurricane Zeta and other issues. He said the Committee also discussed the issues regarding the maintenance of Entergy vaults. He said bus shelter repairs would be addressed at a later date.

He said the Committee was notified that Lakeshore Drive was closed for Mardi Gras for the mitigation of gatherings due to the COVID-19 pandemic.

OLD BUSINESS:

1) Update on Messina’s at the Terminal and the Runway Café.

Director Capo explained that Mr. George Messina had informed staff that he would be introducing a new point-of-sale system and promoted his sous chef to head chef who had revamped the menu.

He said staff would be having a follow-up meeting with Mr. Messina to discuss the reopening of the restaurant. It was his understanding that Mr. Messina’s company had received Paycheck Protection Plan (PPP) funds but still had to lay off staff at his other locations.

Commissioner Watters added he thought the sooner the restaurant opened, the better it would be for the Airport.

Director Capo said that Mr. Messina had attempted to negotiate his hours down.

Chair Heaton said that according to the Lease only the Board could formally amend a lease by resolution. Gerard Metzger, Legal Counsel to the LMA, concurred.

Commissioner Romero expressed concern about Mr. Messina operating the catering aspect of his business while the restaurant remained closed.

Director Capo explained that Mr. Messina had performed off-site catering operations out of the Terminal location to keep his staff employed. He said Mr. Messina advised he and Mr. Martin that he would need to lay the Terminal employees off if they did not cater.

Commissioner Romero expressed concern about the reporting of the off-site catering revenue.

Director Capo said the lease was clear, and all gross revenue was to be factored in for overage payments. He indicated that staff does review his sales tax records to verify his sales.

Commissioner Watters offered that a further resolution of Mr. Messina's concerns could be refined and introduced to the Board if necessary.

NEW BUSINESS:

- 1) **Motion to accept Public Law 116-260 Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) Grant (FAA Grant No. 34) for the New Orleans Lakefront Airport in the amount of \$57,000.00.**

A motion was offered by Commissioner Watters, was seconded by Commissioner Fierke, and was unanimously approved to accept Public Law 116-260 Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) Grant (FAA Grant No. 34) for the New Orleans Lakefront Airport in the amount of \$57,000.00.

Mr. Martin explained that the grant was the result of the second wave of relief after the CARES Act was implemented. He said that the grant had stricter uses but could still be used to supplement airport payroll and cleaning supplies. Chair Heaton added that the grant may help offset loss of fuel sales.
